April 19, 2021

To the Little Ferry School District:

It has been brought to our attention late yesterday that a student/staff member has tested positive for COVID-19. The student/staff member is in good health; however, due to the direct contact the student/staff member had with students and staff, we are notifying those people who we believe have been in close contact with the infected person(s).

We are working with the Bergen County Health Department & the Little Ferry Health Department’s contact tracers to determine the next steps to ensure the safety of our students and staff. Persons within 6 feet for more than 10 minutes are considered close contacts and are at increased risk of developing this infection. Anyone considered to be ” **Close Contact.**” Will be notified. This letter is general notification of a positive case in the school with the incubation period being Wednesday, April 14<sup>th</sup> to Friday, April 16<sup>th</sup>. The positive test was transmitted to us late yesterday & has been contact traced. Please monitor you or children for any Covid symptoms. It is not necessary to test unless symptoms develop.

The Little Ferry School District is committed to protecting the health and safety of our community. The steps we are taking, as a district, are guided by the recommendations of the State of New Jersey, the New Jersey Department of Health, the Bergen County Department of Health Services, the Little Ferry Department of Health, and the Centers for Disease Control and Prevention (CDC). The measures being taken are in the best interest of the students, staff, and surrounding community.

If you have any additional questions please contact the Little Ferry Health Department at 201-641-3900 or Donna Doran, contact tracing at [ddoran@lfboe.org](mailto:ddoran@lfboe.org).

Sincerely,

Frank R. Scarafile  
Superintendent of Schools
